Dealing with Sexual Harassment

If you have questions or concerns, consult one of the many Sexual Harassment Advisers listed on the Sexual Harassment Policy Office website: harass.stanford.edu or call (650) 724-2120. For more campus resources, see the reverse side.

What is it?

Sexual harassment can be subtle and indirect or blatant and overt. It can take many forms:

• Unwelcome or coercive sexual advances in exchange for favorable treatment, or under the threat of unfavorable treatment (e.g., grades, jobs, promotions).
• Sexual or gender-related behaviors that create a hostile academic, living, or work environment.
• Persistent and unwanted communication of a sexual nature (e.g., in person, by phone, text, email, or social media).
• Misconduct could consist of repeated actions or may even arise from a single incident if sufficiently severe.
• It may have the effect of causing an individual to change behavior or work performance.

Why It’s Important

Sexual harassment can:

• Create fear and intimidation
• Be an attempt to control someone
• Lead to tension or conflict in a residential community or workplace
• Deprive others of the opportunity to study, work, and live in a supportive environment

How to Stop it

• Recognize and speak up when behavior is making you or others uncomfortable.
• Don’t put up with it. Most often situations get progressively worse, not better.
• Seek advice from people who can help. Contact the resources on the reverse side or on our website: harass.stanford.edu/help/resources

About Consensual Relationships

Stanford has a detailed policy regarding consensual sexual and romantic relationships between people in inherently unequal positions, such as: teachers and students, supervisors and employees, coaches and athletes, mentors and advisees.

Consensual relationships between individuals in inherently unequal positions should in general be avoided and in many circumstances are strictly prohibited by this policy. The absence of objection to, or complicity with, misconduct does not mean the behavior is welcome. Whether behavior is offensive or not depends on how it is perceived, not how it was intended.

Important Tips

Be aware of cultural differences. When someone says “stop” or expresses uneasiness, respect their boundaries.

The absence of objection to, or complicity with, misconduct does not mean the behavior is welcome.

Whether behavior is offensive or not depends on how it is perceived, not how it was intended.

About Students
